

# SEAL PRICE SCHEDULE National Storm Shelter Association

Revised (Community Shelters) 5/2019

## Residential Shelters

Design Occupancy up to 16  
Seal cost based on purchase order volume

<u>No. Seals Purchased</u>	<u>Cost</u>
0-19	\$50 Each
20-49	\$40 Each
50-99	\$35 Each
100-499	\$30 Each
≥ 500	\$25 Each
≥ 1000/Year*	\$20 Each

\*Producer Members who produce higher volume of units (>1000) can participate in a new Calendar Year Program. In January of each calendar year a high volume Producer can commit to buy 1000 seals over the year at a set price of \$20/seal. The Producer can make their normal purchase amount of seals bi-weekly or monthly (e.g. 50 – 100 seals) during the year for \$20/seal for as many as they need during the year. If the Producer has not purchased in excess of 1000 seals before the calendar years end, they must purchase the deficient amount before years end.

Producer Members who elect to participate in this program must sign an agreement at the beginning of each year to receive \$20/seal rate. Email info@nssa.cc for more information.

**Example:** Purchaser commits to buy 1000 seals, by December they have purchase only 850 seals, they must purchase the remaining 150 seals at \$20/seal before years end. These seals can be used in the following year, but this may affect the Producers decision to commit to another 1000 seals in January for the next calendar year.

## Community Shelters

<u>Design Occupancy</u>	<u>Cost</u>	
1 - 16	Use Schedule Above	
17 – 49	\$150 Each	
50-99	\$300 Each	Peer review required: inherent in NSSA Compliance Verification Process
≥ 100	\$500 Each
